

## **Eco friendly Textiles**

Marina Cavalieri Textile Design offers natural and certified organic fabrics such as

- cotton
- linen
- raw silks
- nettle

produced from re-grown and sustainable cultivation; available for homewares, soft furnishing and fashion accessories.

### **Certified organic cultivation:**

- The company imports natural and certified organic textiles from overseas, which are rated with the European “Oekotex” 100 ECO Standard.
- All natural textiles are cultivated under the guarantee of no use of herbicides or pesticides and no child labour. In the manufacturing process chlorine, dyes with toxic heavy metals and formaldehyde are totally banned.
- Textiles classified as certified organic are natural re-grown under the guidelines of certified organic cultivation.

### **Production**

Marina Cavalieri works with a small local production team, which is involved in several stages such as printing, sewing and sales. Marina Cavalieri applies environmentally friendly materials, saves energy and natural resources such as water, minimises waste and re-uses production materials, wherever possible.
